

# SYRACUSE HAULERS

WASTE REMOVAL, INC.

\* Syracuse, N.Y. \*

Attention Town of Salina residents:

**Effective 1/1/2023** the town will be changing over to an automated collection system. Syracuse Haulers will provide each residence containerized trash and recycling services. Automating the collection will be a betterment to the towns service due to the following:

- Uniformity throughout the town
- Environmental impact – (containment of material)
- New trucks will be used throughout the town
- Safety of the residents (rolling of cart instead of lifting and dragging)
- Increase recycling numbers due to container volume and every resident will have a container to promote recycling
- Bird and rodent control

Two new 95-gallon carts will be provided to each home; one for trash and one for single stream recycling. Please place these carts out the night before or by 6:00am at the curbside as you have in the past on your pickup day. **Your pick-up day will remain the same.**

Please place these new carts with the handle facing your home. Keep containers away from any hazards such as mailboxes, lamp posts, vehicles etc. Separate these carts at least **five feet** from one another (See Image 1), or each at opposite sides of your driveway as shown below. (See image 2) All trash & recycling must be placed in the appropriate container, not on the ground. Do not attempt to crush down the contents or over pack the container as this will lead to issues when trying to empty the containers into the trucks. All recycling material including cardboard boxes must be placed in the green recycling container.

These carts have serial numbers for tracking purposes and will be maintained by Syracuse Haulers for all normal wear and tear (a wheel falling off, lid hinge breakage, body cracks etc.) which would result in replacement or repair by Syracuse Haulers. The carts will be the responsibility of the homeowner during the five-year contract. Please be sure to keep track of this equipment and report any wear and tear to Syracuse Haulers at **(315) 426-6771**. Abuse which includes fire, paint damages, vehicle crushing or loss of the equipment would be charged at a rate of \$125 per container to include both the replacement and switch out of the damaged equipment.

**You are not authorized to alter the containers in any way.**

## Town of Salina FAQs

1. **Will my pickup day change?** – No, your service day will remain the same.
2. **What time should I put my containers out for collection?** – Place containers curbside the night before your service day or no later than 6 am on your service day to avoid being missed.
3. **What if I put my containers out late and miss the pickup?** – Contact Syracuse Haulers to arrange a return trip for a **fee**.
4. **What if I want to use my own containers?** – Only Syracuse Haulers containers will be serviced. All others will be left behind. We recommend finding a use for them around the house or using them for your brush collection.
5. **How do I dispose of large cardboard boxes?** – Break it down and place it in your green Syracuse Haulers container or call Syracuse Haulers for a special pickup for a **fee**.
6. **Can I place trash and recycling outside of my containers?** – No, nothing will be collected outside of the containers unless previously scheduled for a **fee**. Bulk items can also be picked up for a **fee**. Contact Syracuse Haulers for a quote.
7. **Why were my containers missed?** –
  - Refuse was put out late
  - Overloaded containers - Lids need to be closed for collection
  - Unauthorized items in containers
  - Improper container placement

**Any resident who decides that they need service before their next scheduled pickup day will have to pay a service fee.**

8. **What if I need an additional trash or recycling container for my household?** – Contact Syracuse Haulers to set up. Annual fees apply.
9. **How do I prepare my trash for collection?** – All trash must be bagged and placed into your black Syracuse Haulers container. Loose material or bulk items in the trash can will result in you not being serviced.
10. **How do I prepare my recycling for collection?** – **DO NOT BAG YOUR RECYCLING.** All recyclable material including cardboard boxes are to be placed loosely into your green recycling container. No trash, food waste or clothes are to be placed in your recycling container.
